VACUUM AIDED MOBILITY BAG PACKING SYSTEM

S.A.P.S.
SMALL ARMS PACKING SYSTEM

For over five years, Koch Equipment LLC and the Vacuum Assisted Mobility Packing System (VAMPS) and Small Arms Packing System (SAPS) have been helping bases optimize the utilization of their available storage space while, simultaneously, protecting stocked assets. You, too, can expect to increase available storage space by up to 50% and eliminate asset replacement costs due to environmental factors such as dry rot, mold, mildew, oxidation, and pests.

The VAMPS system enables the user to build kits, reduce the space taken up by bulk storage, pack individual assets, and overcome the problems of crowded storage situations. The VAMPS system is extremely easy to operate and maintain.

The VAMPS system was designed in conjunction with the AEF Battlelab at Mountain Home AFB, ID. All aspects of supply and mobility were studied, tested, and incorporated in the final design. The machine is designed to be deployable, mobile, or as a permanent fixture in the warehouse. It is backed with a two year non-wear parts warranty, an on site training seminar, and over 100 years of packaging expertise.

PRICING FOR VAMPS
UNIT #UV2100MIL/PN 903003-100
CONTRACT NO. GS-15F-0033L
Contract expires April 23, 2011
CAGE CODE: 158T5 / SIN 617-4
DUNS 013209007
TIN: 43-1906745
GSA PRICE: $22,893.94*

BASE MODEL FEATURES
- 12" Deep Chamber
- Die Cast Aluminum Body
- 10hp Busch Pump
- Digital Control System
- Parameter Lockout and Pre-program Package
- Wide Band Seal Bar
- Anti-wrinkle Hold Down Bars
- Air Compressor Seal Assist System
- LBB Knife System – Military Issue Only
- Metal Transport Pallet
- Operation/Maintenance Video
- Herculete Storage Cover
- Worldwide Voltage Capabilities (3 Phase Only)
- On Site Training Session

SPARE PARTS KIT
- Seal Bar (10mm)
- Backup Strip
- Lid Gasket
- Vacuum Pump Oil
- Aspen Valve Rebuild Kit
- Din Coil
- Teflon® Tape
- Seal Elements
- Power Fuse
- 20 AMP Fuse
- LBB Knife Backup Strip
- Cutoff Blade

* Price Includes Base Model, Spare Parts Kit, and Freight within the Continental U.S.
