**Boost your machine's performance with these patented features:**

## **Pallet Grip®**

**Don't Take More Risk Than You Have To!**

Millions of loads slide off their pallets during shipment each year, causing billions of dollars of rework and waste.

Pallet Grip rolls up a film cable and drives it down onto the pallet, locking the load. This makes sure your load does not slide off during transit.

## **EZ Weigh™ Integrated Scale**

**Check Every Load for Quality and Freight Cost!**

Weigh and wrap in one easy step.

Built-in weigh system fully integrated into turntable.

Same footprint as standard Q semi-automatic.
