## Adjustable Folding Box

### Upgrade R0001

An Adjustable Folding Box offers the flexibility to wrap products between 65mm-210mm wide & 10mm-120mm high subject to machine parameters.

#### Advantages

- Enhances the machine performance & flexibility to wrap a wide range of products
- Simple easy clean design free of wear parts
- Ease of adjustment allows the operator to fine tune whilst running to achieve optimum pack presentation
- Can be moved between Rose Forgrove machines without the need for additional tooling
- Especially suited to short production runs (ie bakery, contract packaging), where product variance can be a consideration

#### Items Included

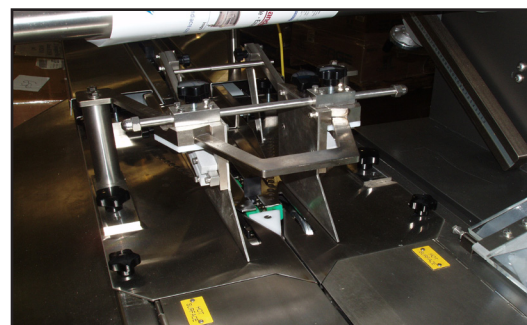

- Fully assembled Adjustable Folding Box complete
- Base plates complete with side guides to suit lugs or paddles

#### Installation

- Installation may be completed by your personnel or a factory trained HayssenSandiacre Service Technician
- Fully itemized assembly drawing included

#### Model Availability

- RF451, RF455, RF452, RF555, RF655, RF305, RF605, RF602, RF665
