

SWF BF 400V

Bliss Former

The SWF brand of bliss and tray formers date back to the 1940's. With an install base of more than 5,000 machines worldwide, this versatile equipment forms hundreds of different styles of tray and bliss cases. Featuring a small footprint, these ruggedly built machines require little floor space and are easily moved on their casters or by fork lift to accommodate location changes as necessary. With mechanical simplicity and durability as a primary focus, long life cycles are common among our installations.

SWF BF 400V Bliss Former

Through the use of various material combinations, bliss boxes can have a high strength-to-weight ratio. With our extensive experience, BW Integrated Systems can work with you and your corrugated material supplier to create the best solution for you.

Contact our experienced sales teams today for a comprehensive review of your application(s) and to see how our SWF BF 400V Bliss Formers can benefit your company.
