

O/K PACKAGING SYSTEM

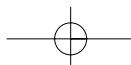

The OK Packaging System is a comprehensive product line of case erectors, pick & place systems, case sealers, conveyors, and other options. The machines have easy adjustments for quick size changes without tools, operator friendly controls and ergonomic loading of cases and tape. Most machines are available in powder coated painted finish or in stainless steel. We provide equipment with an exceptional quality, with many standard features, offered at competitive prices.

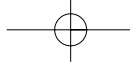

OK SUPERFORMER

Case Erector

The new OK SUPERFORMER erects RSC cases, folds the bottom flaps and closes them with tape. Unique features of the machine include automatic case squaring system, easy size change, tape and case monitoring.

OK SUPERFORMER
